Harsh Pariya

Aspiring Machine Learning Engineer

B.Tech CSE (2028) · Rai University · CGPA: 8.85/10 · Ahmedabad, India

Open to AI/ML Internships

Aspiring **AI/ML Engineer** pursuing B.Tech in Computer Science with hands-on experience in **Python, Machine Learning, Deep Learning, and Data Preprocessing**. Skilled in **Scikit-Learn, TensorFlow, PyTorch, NumPy, and Pandas** for developing, training, and evaluating machine learning models. Passionate about building intelligent systems, solving real-world problems through AI, and continuously expanding expertise in modern machine learning technologies. Seeking an **AI/ML Internship** to contribute to innovative projects while gaining industry experience in model development and deployment.

EDUCATION

B.Tech — Computer Science & Engineering

Rai University, Ahmedabad · 2024 – 2028

CGPA: 8.85/10

- DSA, Software Engineering, Statistics, Databases
- Active in hackathons, coding contests & AI/ML project building
- Industrial Visit: Adani Power Plant – Exposure to industrial automation systems

INTERNSHIP EXPERIENCE

Development Intern — Codveda Technologies

Internship Offer Received · 2025

- Building AI/ML and full-stack projects independently to gain hands-on skills
- [View offer on LinkedIn →](#)

TECHNICAL PROJECTS

SquidAI — Intelligent Assistant Platform

FEATURED PROJECT

Built an AI-inspired assistant platform featuring a conversational interface, modern UI, and responsive user experience using React, Next.js, and TypeScript.

[Live Demo](#)

[GitHub](#)

React · Next.js · TypeScript · Responsive UI

Quiz Application

2025

Full-stack platform with dynamic scoring, MongoDB persistence & modular React architecture.

[Live](#)

[GitHub](#)

[LinkedIn](#)

TravelGo — Travel App

Personal

Trip planning web app with clean UI, structured data flows & responsive design.

[Live](#)

[GitHub](#)

Campus Navigation System

Academic

Map-based navigation app with responsive UI and full-stack API architecture.

[Live](#)

[GitHub](#)

Student Management System

2025

React + Redux Toolkit app with student CRUD & weather API integration.

CORE COMPETENCIES

Machine Learning Foundations

Python, NumPy, Pandas, Scikit-Learn, Regression, Classification, Clustering

Deep Learning

TensorFlow, PyTorch, Neural Networks, CNN Fundamentals & Model Training

Software Development

Building responsive web applications using React, Next.js, APIs and modern development practices

Tools & Deployment

Git, GitHub, Docker, Jupyter Notebook, VS Code and Cloud Fundamentals
