MACHINE LEARNING

Python Scikit-Learn NumPy Pandas
Feature Engineering Classification
Regression Clustering Ensemble Methods

DEEP LEARNING

TensorFlow PyTorch Keras
Neural Networks CNN / ConvNets
Model Training

NLP

TF-IDF Text Classification NLTK SpaCy

GENERATIVE AI

OpenAI API LangChain RAG
Prompt Engineering FAISS Vector DB

TOOLS AND DEPLOYMENT

Streamlit FastAPI ML Pipelines
Model Deployment React Next.js
MongoDB Docker Git

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Continuous Learning
- Team Collaboration
- Project Ownership

GITHUB METRICS

15+ Projects Built
1900+ Contributions
50+ Problems Solved
8.98 CGPA

Harsh Pariya

Machine Learning Engineer | AI Developer | Python Programmer

B.Tech Computer Science and Engineering (2028) | Rai University, Ahmedabad | CGPA: 8.98/10

Open to AI/ML Internships

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in **Machine Learning, Deep Learning** and **Generative AI**, built through self-driven projects using **Python, Scikit-Learn, TensorFlow** and **PyTorch**. Comfortable across the full build cycle, from cleaning data and training models to wrapping them in REST APIs with FastAPI and Streamlit. Recently worked with **LangChain, RAG pipelines** and the **OpenAI API** to build LLM-powered tools. Looking for an **AI/ML Internship** where I can learn from experienced engineers and contribute to real projects.

EDUCATION

B.Tech - Computer Science and Engineering
Rai University, Ahmedabad | 2024 to 2028

CGPA: 8.98 / 10

- Relevant coursework: DSA, Software Engineering, Statistics, Databases
- Participated in hackathons, coding contests, and AI/ML project builds
- Industrial visit to Adani Power Plant; gained exposure to industrial automation

KEY ACHIEVEMENTS

Notable Highlights

Personal Growth and Technical Work

- Participated in hackathons and college-level coding contests focused on AI/ML problem statements
- Attended hands-on workshops: AI Tools with ChatGPT (Be10x) and Cloud DevOps Roadmap (GUVI x HCL)
- Regularly practice DSA on competitive platforms to sharpen logical thinking and coding efficiency

TECHNICAL PROJECTS

AI Career and Research Assistant

FEATURED PROJECT

A full generative AI platform I built from scratch - Next.js 14 frontend with a custom Groq-powered Python backend. Has agentic web search, a PDF chatbot using RAG, Whisper-based voice input, vision analysis, and an ATS resume reviewer all in one app.

Live Demo Frontend Backend

Tech Stack: Generative AI, Next.js 14, Python, Groq API, RAG, Tailwind CSS, MongoDB

SquidAI - Intelligent Assistant

Dec 2025

An LLM-powered coding assistant I put together for quick code generation, bug explanations and general technical Q&A through a clean full-stack UI.

Live Demo GitHub

Tech: AI, React, Node.js, REST API

Resume Screening AI

Apr 2026

Resume classifier trained on a multi-category job dataset using XGBoost + TF-IDF vectorization. Hits 88%+ accuracy - trained, evaluated and deployed end-to-end.

Live GitHub

Tech: Python, XGBoost, TF-IDF, NLP, Streamlit

Fake News Detection NLP

June 2026

Trained a Linear SVM on 44,000+ news articles using TF-IDF features. Ended up with 99.29% accuracy on the test set - one of my best NLP results so far.

Live GitHub

Tech: Python, SVM, TF-IDF, NLP, Streamlit

California House Price Prediction

Mar 2026

XGBoost regression model for the California housing dataset - R² score of 85.03%. Wrapped it in a FastAPI backend and a Next.js frontend so anyone can try it live.

Live GitHub

Tech: XGBoost, Next.js, Python, FastAPI, Vercel

Brain Tumor Detection CNN

May 2026

CNN model built in TensorFlow/Keras to classify MRI brain scans into four tumor types - Glioma, Meningioma, Pituitary and No Tumor. Trained from scratch on a public dataset.

Live GitHub

Tech: Python, CNN, TensorFlow, Keras, Vercel

Image Caption Generator

May 2026

Uses InceptionV3 to extract visual features and an LSTM decoder to write a natural sentence describing any uploaded photo - a fun encoder-decoder architecture project.

Live GitHub

Tech: Python, TensorFlow, CNN, RNN, LSTM, Streamlit

CERTIFICATIONS AND WORKSHOPS

AI Tools and ChatGPT Workshop

Be10x | Successfully completed
View Certificate on LinkedIn

Cloud DevOps Roadmap 2026

GUVI x HCL | Webinar completed
View Certificate on LinkedIn

CORE COMPETENCIES

ML and Data

Scikit-Learn, NumPy, Pandas, XGBoost, SVM, feature engineering, model evaluation

Deep Learning

TensorFlow, PyTorch, Keras, ANN, CNN, RNN, LSTM, transfer learning

Web and APIs

React, Next.js, Node.js, FastAPI, REST APIs, MongoDB, full-stack development

Dev Tools

Git, Docker, Streamlit, Vercel, Jupyter, VS Code, Groq API, LangChain
